

## Local Partnership Fund Application

The Local Partnership Fund initiative designates \$40 million to encourage local governments to assume responsibility for the management and administration of certain transportation projects within the locality. To request funds, the locality must identify a qualifying project or projects, and agree to administer the selected projects. Qualifying projects are those scheduled for advertisement between July 1, 2005 and June 30, 2006 based on the VDOT advertisement schedule and are federally funded through the secondary or urban system allocation. A resolution from the local governing body must be attached.
